**Would you like to add a splash of color onto the canvas of someone's life?
Paint purpose where there has been pain? Spread hope where there has
been heartache?**

Well then, get your brushes ready to paint a life with love.

Because, as Bethany House transitions its program into the next phase, sponsor families are needed to provide homes and family-like support to pregnant women and women with children.

Many of you have asked: *What exactly is a Sponsor Family?*

We're so glad you asked! A sponsor family ...

- has a heart for wounded women and children
- is willing to accept a young mother into their home
- will help provide emotional and spiritual support
- embraces their guest as a "family member"
- commits to setting a positive example for their special guest

Bethany House staff will be with you every step of the way. I will provide full case management services, organize needed classes, counseling, training, and other support services, and create an individual success plan. We will also assist with career searches, developing improved parenting techniques, life skills, and education opportunities. Together, we will offer a unique balance of wrap-around services that help and nurture both mother and child.

Of course, this is a highly individualized program, and the best way to learn more is to contact me directly. I'd be more than happy to meet with you. After all, an "art project" of this magnitude is far more valuable than any Picasso, Rembrandt, or Monet. Becoming a sponsor family provides eternal benefits for both the giver and receiver.

Choosing an endeavor of this importance will deeply enrich your family's life, as well as, the life of a young mother and her child.

God bless you!

Beth E. Rhinehart/Executive Director
