

Bethany House

Providing Services for Women and Children Since 1986

Dear Friends,

The Holiday Season has arrived on schedule with Thanksgiving just around the corner, making this the ideal time for a letter that is all about saying thank you.

Many of you have been supporting our program since the very beginning, when we first started raising money and developing our time-tested services back in 1986. You were there when we welcomed our first pregnant girl in 1990, and have stood beside us through every season, providing prayers, encouragement, volunteering, donating goods and services, and giving financially. I want to personally say, thank you. We would never have lasted this long without you.

The little guy pictured here is one of the primary reasons we have been doing this work all these years. At this stage, we have reached a point where some families are now three generations deep. Young moms that were part of program so long ago are now grandparents. They have broken cycles of abuse, poverty, domestic violence, homelessness, addictions, and so much more to create new legacies that will continue long after we are gone.

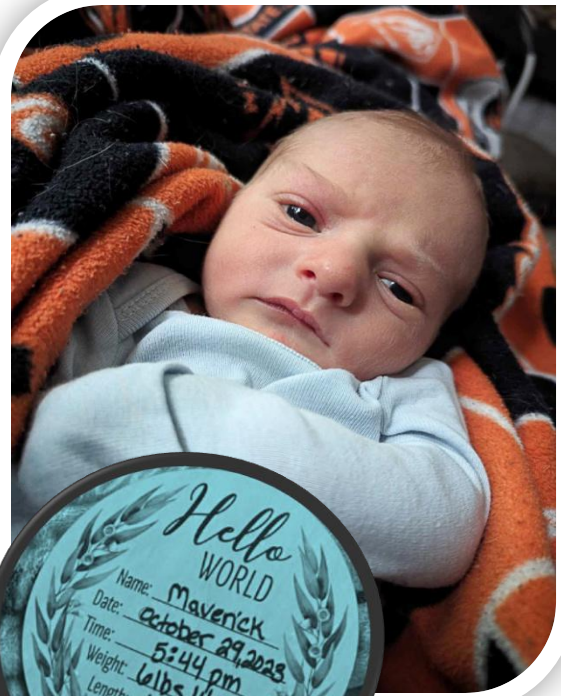

You helped make that possible.

We simply want to say how much your confidence in Bethany House has meant to us through the years...through the decades.

Whether you joined our mission last month or back in 1986, please know you have played an important part in our success.

Thank you. May God bless you richly and beyond measure as we move into this new Season. Happy Thanksgiving and Merry Christmas. Wishing you the very best now and into the New Year.

Sincerely,

Bethany House Program
